

Minutes of Parents' Forum 11.10.18

Present: Mrs Seymour (Headteacher), Mrs Fryer-Kelsey (Governor), 0 parents

Agenda item: The effectiveness of the school's website

The school's website is designed to provide parents with both statutory information for example policy information, and also useful information.

We aim for the website to be engaging to families as well as useful. Feedback from a governor was that while the website was accessible from a computer and tablet, it was not as accessible from a phone. It is, of course, more and more likely that parent would try to access using mobile phones.

As a result, the website access has now improved giving greater access 'on the go'. We hope parents find this useful.

The intention is that all information should be a couple of clicks into the required information rather than having to delve to find information and that information is clearly signposted.

If you would like to provide feedback on this topic, please email the admin team on admin@commonswood.sch.uk as they will be happy to pass on your comments.
